### **EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose or reasonably suggest the limitation of comparing two versions of a speech signal that are denoised by nonlinear spectral subtraction, such that the first and second versions are denoised so as not to be less, in a spectral domain, than first and second fractions, respectively, of a long-term noise estimate, where a second fraction is smaller than a first fraction. Applicants' Specification, Page 5, Line 22 to Page 6, Line 5, discloses an embodiment comparing two denoised versions of a speech signal to fractions  $\beta_1$  and  $\beta_2$ . The Specification, Page 1, Line 36 to Page 2, Line 2, suggests an objective of a voice activity detector that is more robust to noise detection. It is noted that Applicants have a priority date of 04 August 1999 under 35 USC §371. The prior art of record does not disclose or reasonably suggest these features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
